Management Commentary

"We had an outstanding performance in 2012, achieving records in a number of categories," said Jonathan W. Painter, president and chief executive officer of Kadant. "Adjusted diluted EPS for full-year 2012 increased 9 percent to a record \$2.29, making 2012 and 2011 the two best years for EPS in our history. Adjusted diluted EPS of \$0.44 in the fourth quarter of 2012 was down 25 percent compared to the same period last year, but well ahead of our GAAP guidance of \$0.35 to \$0.37.

"Revenues in the fourth quarter were \$78 million, down 20 percent from last year's record-setting performance largely due to lower capital revenues, particularly in our stock-preparation product line. Encouragingly, revenues for our parts and consumables were up 7 percent compared to the fourth quarter of last year and up 14 percent sequentially.

"We had another good quarter in operating cash flows. Cash flows from continuing operations were \$13 million in the fourth quarter of 2012, down 14 percent compared to a very strong fourth quarter of 2011. For the full year, cash flows were \$30 million and we ended the year with \$55 million in cash. Our net cash position, that is, cash less debt, was \$48 million, up \$6 million from the third quarter of 2012. For full-year 2012, we purchased \$14 million in common stock, which represented approximately 634,000 shares at an average purchase price of \$22.87 per share."

Fourth Quarter 2012

Kadant reported revenues from continuing operations of \$78.1 million in the fourth quarter of 2012, a decrease of \$18.9 million, or 20 percent, compared to \$97.0 million in the fourth quarter of 2011. Operating income from continuing operations was \$6.7 million in the fourth quarter of 2012 compared to \$9.1 million in the fourth quarter of 2011.

Net income from continuing operations was \$9.6 million in the fourth quarter of 2012, or \$0.84 per diluted share, compared to \$10.7 million, or \$0.90 per diluted share, in the fourth quarter of 2011. Net income from continuing operations in the fourth quarter of 2012 included a \$4.6 million, or \$0.40 per diluted share, benefit from discrete tax items. Net income from continuing operations in the fourth quarter of 2011 included a \$4.1 million, or \$0.34 per diluted share, benefit from discrete tax items and a \$0.4 million, or \$0.03 per diluted share, after-tax restructuring charge. Adjusted net income, a non-GAAP measure, was \$5.0 million, or \$0.44 per diluted share, in the fourth quarter of 2012 compared to \$7.0 million, or \$0.59 per diluted share, in the fourth quarter of 2011.

Guidance

"We are seeing increased project activity and we believe the demand for our capital products will be stronger in 2013 compared to 2012, particularly in our stock-preparation product line," Jonathan W. Painter continued. "Since the end of the year, we have booked more than \$12 million in capital orders in our stock-preparation product line and we believe that consolidated bookings will increase sequentially in the first quarter of 2013. That said, the continuation of the relatively weak global economy combined with our booking rates over the last several quarters leads us to remain somewhat cautious as we look ahead to 2013. As a result, we expect to achieve GAAP diluted EPS from continuing operations of \$1.80 to \$1.90 in 2013 on revenues of \$320 to \$330 million. Our full-year diluted EPS guidance includes an unfavorable effect of \$0.21 from a higher recurring tax rate compared to 2012. For the first quarter of 2013, we expect to achieve GAAP diluted EPS from continuing operations of \$0.32 to \$0.34 on revenues of \$71 to \$73 million."

Use of Non-GAAP Financial Measures

In addition to the financial measures prepared in accordance with generally accepted accounting principles (GAAP), we use certain non-GAAP financial measures, including increases or decreases in revenues excluding the effect of foreign currency translation, adjusted operating income, adjusted net income, adjusted diluted EPS, earnings before interest, taxes, depreciation, and amortization (EBITDA), and adjusted EBITDA.

We believe that these non-GAAP financial measures, when taken together with the corresponding GAAP financial measures, provide meaningful supplemental information regarding our performance by excluding certain items that may not be indicative of our core business, operating results, or future outlook. We believe that the inclusion of such measures helps investors to gain an understanding of our underlying operating performance and

future prospects, consistent with how management measures and forecasts our performance, especially when comparing such results to previous periods or forecasts and to the performance of our competitors. Such measures are also used by us in our financial and operating decision-making and for compensation purposes. We also believe this information is responsive to investors' requests and gives them additional measures of our performance.

The non-GAAP financial measures included in this press release are not meant to be considered superior to or a substitute for the results of operations prepared in accordance with GAAP. In addition, the non-GAAP financial measures included in this press release have limitations associated with their use as compared to the most directly comparable GAAP measures, in that they may be different from, and therefore not comparable to, similar measures used by other companies.

We present increases or decreases in revenues excluding the effect of foreign currency translation to provide investors insight into underlying revenue trends.

Adjusted operating income and adjusted EBITDA exclude pre-tax restructuring costs of \$0.4 million in the three-month period ended December 31, 2011. Adjusted operating income and adjusted EBITDA exclude pre-tax gains of \$2.3 million, net of restructuring costs of \$0.4 million in the twelve-month period ended December 31, 2011. These items are excluded as they are not indicative of our core operating results and not comparable to other periods, which have differing levels of incremental costs or other income or none at all.

Adjusted diluted EPS in the three-month and twelve-month periods ended December 29, 2012 and December 31, 2011 was calculated using the reported weighted average diluted shares for each period.

Adjusted net income and adjusted diluted EPS exclude:

- Other expense of \$0.3 million in the twelve-month period ended December 29, 2012 associated with accelerated depreciation related to a facility consolidation; and restructuring costs of \$0.4 million in the fourth quarter of 2011 and other income, net, of \$1.7 million in the twelve-month period ended December 31, 2011. Other income, net, includes gains on the sale of assets of \$2.0 million (net of tax of \$0.3 million) and restructuring costs of \$0.3 million (net of tax of \$0.1 million) in the twelve-month period ended December 31, 2011. We believe that the restructuring costs and other income and expense are not indicative of our core operating results and not comparable to other periods, which have differing levels of incremental costs and income or none at all.
- A benefit from discrete tax items of \$4.6 million in the three-month and twelve-month periods ended December 29, 2012 and \$4.1 million and \$6.2 million in the three-month and twelve-month periods ended December 31, 2011, respectively. The benefit from discrete tax items in the 2012 periods were primarily due to the reversal of valuation allowances on certain deferred tax assets in the U.S. based on a consideration of expected profitability and foreign source income in future periods. The benefit from discrete tax items in the 2011 periods were primarily due to the reversal of valuation allowances on certain deferred tax assets in the U.S. and China based on a consideration of expected profitability in future periods. We believe that these discrete tax benefits are not comparable to other periods, which may have differing levels of discrete tax items or none at all.

Reconciliations of the non-GAAP financial measures to the most directly comparable GAAP financial measures are set forth in this press release.
