Management Commentary

"We started 2014 strong with excellent bookings, solid gross margins, and a 36 percent increase in adjusted EBITDA compared to the first quarter of 2013," said Jonathan W. Painter, president and chief executive officer of Kadant Inc. "Our diluted earnings per share from continuing operations was \$0.45 in the first quarter of 2014, which included \$0.02 of restructuring costs and \$0.13 of expense related to acquired profit in inventory and backlog associated with businesses acquired in 2013.

"Revenues of \$93 million in the first quarter of 2014 increased 23 percent compared to the first quarter of 2013, but were slightly below the lower end of our guidance. Our parts and consumables revenues were a record \$61 million in the first quarter of 2014, increasing 19 percent compared to the first quarter of 2013.

"The highlight for the quarter was our record bookings of \$115 million in the first quarter of 2014, including \$16 million from acquisitions, which increased 37 percent sequentially and 27 percent compared to the first quarter of 2013. Excluding bookings from acquisitions, our bookings in the first quarter of 2014 increased 9 percent compared to the first quarter of 2013 as a result of favorable market conditions, particularly in North America."

First Quarter 2014

Kadant reported revenues of \$93.4 million in the first quarter of 2014, an increase of \$17.2 million, or 23 percent, compared with \$76.2 million in the first quarter of 2013. Revenues for the first quarter of 2014 included \$18.9 million from acquisitions and a \$0.5 million increase from foreign currency translation compared to the first quarter of 2013. Operating income from continuing operations was \$7.6 million in the first quarter of 2014, including \$2.0 million of expense related to acquired inventory and backlog and \$0.3 million of restructuring costs, compared to \$7.4 million in the first quarter of 2013. Adjusted operating income, a non-GAAP measure, was \$9.9 million in the first quarter of 2014 compared to \$7.4 million in the first quarter of 2013.

Net income from continuing operations was \$5.1 million in the first quarter of 2014, or \$0.45 per diluted share, compared to \$5.3 million, or \$0.47 per diluted share, in the first quarter of 2013. Net income from continuing operations in the first quarter of 2014 included a \$0.2 million, or \$0.02 per diluted share, after-tax restructuring cost.

Guidance

"Our strong bookings in the first quarter of 2014 and expected bookings in the second quarter have put us in a good position for 2014. For the full year, we are increasing our revenue guidance to \$410 to \$420 million, up from our previous guidance of \$405 to \$415 million. We are maintaining our GAAP diluted EPS guidance of \$2.60 to \$2.70 for full year 2014, which includes \$0.17 of expense related to acquired inventory and backlog. This diluted EPS guidance also includes additional expense of \$0.11 for the year associated with a higher effective tax rate compared to our previous guidance. For the second quarter of 2014, we expect to achieve GAAP diluted EPS from continuing operations of \$0.66 to \$0.68 on revenues of \$104 to \$106 million."

Use of Non-GAAP Financial Measures

In addition to the financial measures prepared in accordance with generally accepted accounting principles (GAAP), we use certain non-GAAP financial measures, including increases or decreases in revenues excluding the effect of foreign currency translation, adjusted operating income, earnings before interest, taxes, depreciation, and amortization (EBITDA) and adjusted EBITDA.

We believe that these non-GAAP financial measures, when taken together with the corresponding GAAP financial measures, provide meaningful supplemental information regarding our performance by excluding certain items that may not be indicative of our core business, operating results, or future outlook. We believe that the inclusion of such measures helps investors to gain an understanding of our underlying operating performance and future prospects, consistent with how management measures and forecasts our performance, especially when comparing such results to previous periods or forecasts and to the performance of our competitors. Such measures are also used by us in our financial and operating decision-making and for compensation purposes. We also believe this information is responsive to investors' requests and gives them an additional measure of our performance.

The non-GAAP financial measures included in this press release are not meant to be considered superior to or a substitute for the results of operations prepared in accordance with GAAP. In addition, the non-GAAP financial measures included in this press release have limitations associated with their use as compared to the most directly comparable GAAP measures, in that they may be different from, and therefore not comparable to, similar measures used by other companies.

We present increases or decreases in revenues excluding the effect of foreign currency translation to provide investors insight into underlying revenue trends.

Adjusted operating income and adjusted EBITDA exclude pre-tax restructuring costs of \$0.3 million and pre-tax expense related to acquired inventory and backlog of \$2.0 million in the first quarter of 2014. These items are excluded as they are not indicative of our core operating results and not comparable to other periods, which have differing levels of incremental costs or none at all.

Reconciliations of the non-GAAP financial measures to the most directly comparable GAAP financial measures are set forth in this press release.
