Management Commentary

"We had an outstanding quarter and set a number of financial records including revenue, bookings, backlog, adjusted operating income, adjusted EBITDA, and adjusted diluted EPS," said Jonathan W. Painter, president and chief executive officer of Kadant Inc. "Our diluted earnings per share from continuing operations was \$0.70 in the second quarter of 2014, which included \$0.04 of expense related to acquired profit in inventory and backlog associated with businesses acquired in 2013.

"Revenue was a record \$105 million in the second quarter of 2014, increasing 28 percent compared to the second quarter of 2013 with increases in all our major geographic regions except South America. I'm particularly pleased that internal growth, which excludes acquisitions, made up over half of this revenue increase. Our parts and consumables revenue was a record \$63 million in the second quarter of 2014, increasing 19 percent compared to the second quarter of 2013.

"Despite the decrease in gross margin in the second quarter of 2014 compared to the second quarter of 2013, we had excellent operating margins primarily due to improved operating leverage in selling, general, and administrative expenses. Our operating income was \$12 million, or 11.5 percent of revenue, in the second quarter of 2014, compared to \$8 million, or 10.3 percent of revenue, in the second quarter of 2013. Our adjusted operating income was a record \$13 million in the second quarter of 2014, or 12.1 percent of revenue, compared to \$9 million, or 10.5 percent of revenue, in the second quarter of 2013.

"Our bookings of \$115 million in the second quarter of 2014, including \$14 million from acquisitions, increased 32 percent compared to the second quarter of 2013. Excluding bookings from acquisitions, our bookings in the second quarter of 2014 increased 16 percent compared to the second quarter of 2013. We ended the quarter with a record backlog of \$129 million."

Second Quarter 2014

Kadant reported record revenue of \$104.8 million in the second quarter of 2014, an increase of \$22.6 million, or 28 percent, compared with \$82.2 million in the second quarter of 2013. Revenue for the second quarter of 2014 included \$10.1 million from acquisitions and a \$1.2 million increase from foreign currency translation compared to the second quarter of 2013. Operating income from continuing operations was \$12.0 million in the second quarter of 2014, including \$0.6 million of expense related to acquired inventory and backlog and \$0.1 million of restructuring costs, compared to \$8.4 million in the second quarter of 2013, including a \$1.7 million gain on the sale of assets and a \$1.9 million acquisition-related restructuring charge. Adjusted operating income, a non-GAAP measure, was a record \$12.7 million in the second quarter of 2014 compared to \$8.6 million in the second quarter of 2013.

Both net income and adjusted net income, a non-GAAP measure, from continuing operations were \$7.9 million, or \$0.70 per diluted share, in the second quarter of 2014 compared to \$5.8 million, or \$0.51 per diluted share, in the second quarter of 2013.

Guidance

"We had record bookings in the first and second quarters of 2014 and overall market conditions remain healthy. That said, it is not unusual for customers with larger capital projects, particularly in China, to delay shipment for any number of reasons, and we saw several of these being deferred from the third to the fourth quarter of 2014 and also into early 2015. As a result of the change in the timing of these large capital projects, we are lowering our full year 2014 guidance," Mr. Painter continued. "For the full year, we expect revenue of \$400 to \$410 million, revised from our previous guidance of \$410 to \$420 million. We expect to achieve GAAP diluted EPS from continuing operations of \$2.50 to \$2.60, revised from our previous GAAP diluted EPS guidance of \$2.60 to \$2.70, including \$0.17 of expense related to acquired inventory and backlog associated with businesses acquired in 2013 and \$0.03 of restructuring costs. We expect to achieve GAAP diluted EPS from continuing operations of \$0.52 to \$0.54 in the third quarter of 2014 on revenue of \$94 to \$96 million."

Use of Non-GAAP Financial Measures

In addition to the financial measures prepared in accordance with generally accepted accounting principles (GAAP), we use certain non-GAAP financial measures, including increases or decreases in revenues excluding the effect of acquisitions and foreign currency translation, adjusted operating income, adjusted net income, adjusted diluted EPS, and adjusted earnings before interest, taxes, depreciation, and amortization (EBITDA).

We believe that these non-GAAP financial measures, when taken together with the corresponding GAAP financial measures, provide meaningful supplemental information regarding our performance by excluding certain items that may not be indicative of our core business or future outlook. We believe that the inclusion of such measures helps investors to gain an understanding of our underlying operating performance and future prospects, consistent with how management measures and forecasts our performance, especially when comparing such results to previous periods or forecasts. Such measures are also used by us in our financial and operating decision-making and for compensation purposes. We also believe this information is responsive to investors' requests and gives them an additional measure of our performance.

The non-GAAP financial measures included in this press release are not meant to be considered superior to or a substitute for the results of operations prepared in accordance with GAAP. In addition, the non-GAAP financial measures included in this press release have limitations associated with their use as compared to the most directly comparable GAAP measures, in that they may be different from, and therefore not comparable to, similar measures used by other companies.

We present increases or decreases in revenues excluding the effect of acquisitions and foreign currency translation to provide investors insight into underlying revenue trends.

Adjusted operating income and adjusted EBITDA exclude pre-tax restructuring costs of \$0.1 million and \$0.4 million for the three- and sixmonth periods ended June 28, 2014, respectively, and exclude pre-tax expense related to acquired backlog and inventory of \$0.6 million and \$2.6 million for the three- and six-month periods ended June 28, 2014, respectively. These items are excluded as they are not indicative of our core operating results and not comparable to other periods, which have differing levels of incremental costs or none at all.

Adjusted net income and adjusted diluted EPS exclude after-tax restructuring costs of \$1.3 million (\$1.9 million net of tax of \$0.6 million) and an after-tax gain on the sale of assets of \$1.3 million (\$1.7 million net of tax of \$0.4 million) in the three-month period ended June 29, 2013. Adjusted diluted EPS in the three-month periods ended June 28, 2014 and June 29, 2013 was calculated using the reported weighted average diluted shares for each period.

Reconciliations of the non-GAAP financial measures to the most directly comparable GAAP financial measures are set forth in this press release.
